### McClellan's Bill

to Give the Tax  
Dollar a Fair Break

Today's Quotation  
Wealth may seek us; but wisdom must be sought.

—Rev. Edward Young

If this sounds complicated at first I assure you it isn't; and it's important, for it may be the means of correcting the federal government's habit of constantly increasing the tax it takes out of your pay-check.

I have from Senator John L. McClellan's office a statement by the Senate Committee on Government Operations in behalf of S. 913, known as the McClellan bill, which proposes to set up a joint committee of the two houses of Congress to study each presidential budget.

While the bill carries our Arkansas senator's name it is co-sponsored by 12 members of the upper house. The fact that the following senators could agree on a proposal like S. 913 argues powerfully for its merit:

McClellan, Hoey, O'Connor, Humphrey, McNamara, Underwood, Moody, McCarthy, Mundt, Schepel, Dworshak, and Nixon.

Here's the reason S. 913 is proposed:

Congress operates budget-wise pretty much as it always has. The President proposes budgets, and the House and Senate study them separately. This worked all right when the budget — and tax — figures were small. But in modern times, with a swollen government and astronomical expenditures, congress is swamped.

As the senate committee statement says:

"Presently the Appropriations Committees and the Congress usually hear only the testimony as presented by the agency heads and representatives of the Executive Branch of the Government. They are those who want the money to spend. Generally no testimony is available to the committee to refute their contention, or to point out that the amount requested is excessive or that the entire item of expenditure is unnecessary."

Therefore it is proposed under S. 913 to set up a permanent staff of experts to examine every item in the budget. This staff would report its findings to the Joint Committee, and the committee then would pass the facts on to the Appropriations Committee of both the House and Senate.

For your information, S. 913 passed the Senate on April 8, and is now up to the House.

I understand from press reports that there is some opposition in the House, particularly in the House Appropriations Committee — which possibly could look on S. 913 as getting up a rival authority. But it is imperative that S. 913 be enacted into law regardless.

Congress has delegated so much power to the Executive Department that now the sheer weight of that department's budgets makes careful examination and debate impossible. If congress could change the government yesterday by increasing the spending power of the President then it is common sense today to increase Congress' examining powers to find out how much of the money that the bureau demands is necessary.

For instance, no one would suggest that there is to be any change in the authority of either the House or Senate to approve or disapprove individual projects. But every project in the Budget bears a price tag. The whole point of S. 913 is this:

No one outside the Executive Department bureau which figure up the Budget knows whether that price is real or fancy.

And Congress with all the pressure of other business, has neither the time nor personnel to really examine all the thousands of prices — not merely items — in the Budget.

S. 913 makes sense to you if you want to do something about constantly increasing income taxes.

Good government isn't just a matter of approving or disapproving certain projects — it's a matter of making sure that the citizens are getting a fair break for their tax dollar. That's what S. 913 proposes to do — and I advise you to follow its history in the House.

## Oilmen Making Final Plans for Walkout

Denver, April 28 (AP) — The threat of a nationwide strike hovered over the oil industry today as the Oil Workers International Union (CIO) completed final preparations for a walkout, slated to begin at 12:01 a. m. local time, Wednesday.

A major portion of the industry would be affected by the strike, which could virtually paralyze the nation's output of gas and oil.

A 26-man policy committee met at Denver headquarters of the union yesterday to lay plans for the walkout. Following the meeting the union issued a statement signed by OWIU President O. A. Knight which stated in part:

"Final plans for a nation-wide strike have been completed. It will go on unless collective bargaining produces a satisfactory settlement of the wage dispute before the deadline hour."

The strike originally was slated for March 3, but was postponed three times at government request. The union, which heads a coalition of 22 CIO, AFL and independent oil workers union, claims 100,000 workers will walk out if their demands for a pay raise of 25 cents an hour and higher differentials for night work are not met. Most oil firms have offered an increase of 10 cents an hour. The present wage scale ranges from 2 to \$2.10 an hour.

"Presently the Appropriations Committees and the Congress usually hear only the testimony as presented by the agency heads and representatives of the Executive Branch of the Government. They are those who want the money to spend. Generally no testimony is available to the committee to refute their contention, or to point out that the amount requested is excessive or that the entire item of expenditure is unnecessary."

## Large Group Sees Riders Perform in Roundup Meeting

From 1,500 to 1,800 persons attended the first Roundup club convention here yesterday at the Livestock Show Coliseum in what was termed a "very successful affair."

Riders from all over this section took part in the program which was a day-long affair, starting with registration in the morning, church services and a noon barbecue. During the afternoon riding featured the program.

It is the plan of the local group to make this an annual event.

The legal question was in the hands of Federal Judge David A. Pine in a case brought by the steel industry to force the government to surrender the seized facilities.

Judge Pine, after taking the case under advisement last Friday, kept busy over the week end considering the historic legal arguments. His ruling could come today, but may be delayed until tomorrow or Wednesday.

President Truman, in correspondence released by the White House last night, appeared to take a narrower view of presidential powers than government attorneys did in arguments before Pine.

Truman said executive powers are "limited, of course, by the provisions of the Constitution, particularly those that protect the rights of individuals." He said it is proper that the courts may be examining the legality of the situation, but that:

"I feel sure that the Constitution does not require me to endanger our national safety by letting all the steel mills shut down in this critical time."

The argument over the peace treaty, the device by which Japan now regains its independence and freedom from American occupation, initially involved the State and Defense Departments. Some officials in each favored and others opposed an early Japanese peace.

The dominant military view two or three years ago was that instead of giving Japan complete independence, United States security interests in the Pacific could best be served by relaxing but retaining occupation controls.

The dominant State Department view was that Japan could not be kept under occupation restraints indefinitely and that with basic reforms out of the way the nation should be given its independence.

This was one of the great questions on which Gen. MacArthur, as Allied occupation commander, and the State Department saw eye to eye. MacArthur argued that no occupation would profitably last much beyond five years and he pressed repeatedly for an early peace treaty.

## As Expected McMath Seeks Third Term

Magralla, April 28 (AP) — Gov. Sid McMath has made his long expected announcement that he would seek a third term in office — in defiance of an Arkansas tradition.

The governor, who came back to his native Columbia county for a "McMath Appreciation Night" celebration, told 5,000 cheering supporters at an outdoor rally here Saturday night, that he had found the three supporters he needed for a third term.

McMath had said previously that if as many as three persons asked him to run, he would consider it a draft. He said he didn't have to leave home to find the trio — "I have three little boys."

The governor took note of criticism of his 4-year administration and said he had no intention of quitting "in the face of the abuse, the indignities, the attacks and the harassment that the opposition has heaped upon my head."

Assailing his foes as "the opponents of progress," McMath said, "I promise that my enemies can investigate and harass and attack Continued on Page Two

## Judge Pine Is Studying Ruling on Steel Seizure

Washington, April 28 (AP) — The great constitutional battle over President Truman's three-week-old seizure of the steel industry roared on today — with Truman himself saying he had a right and duty to take over the mills.

The legal question was in the hands of Federal Judge David A. Pine in a case brought by the steel industry to force the government to surrender the seized facilities.

Judge Pine, after taking the case under advisement last Friday, kept busy over the week end considering the historic legal arguments. His ruling could come today, but may be delayed until tomorrow or Wednesday.

## U. S. Takes Big Gamble in Jap Peace Treaty

Washington, April 28 (AP) — Return of sovereignty to Japan today represents a deliberate gamble in United States foreign policy.

The gamble, which had a share of Republican support as well as the backing of the Democratic administration, is that freedom and independence will make a better and more dependable ally of Japan in the struggle against Soviet communism than retention of military controls would have made.

This was a major issue within the government for a long time prior to the decision last summer to go ahead with the signing of the Japanese Peace Treaty at San Francisco in September. It seems likely to continue to be an issue as between the government and its foreign policy critics because it involves a fundamental problem, which is now best to carry out the real interest of the United States.

The argument over the peace treaty, the device by which Japan now regains its independence and freedom from American occupation, initially involved the State and Defense Departments. Some officials in each favored and others opposed an early Japanese peace.

## Washington Corruption and Seizure of Business Termed Outgrowth of Bureaucracy

Washington, April 28 (AP) — The president of the United States of Commerce declared today that corruption in Washington and the seizure of private businesses are natural outgrowths of "overswollen bureaucracy."

D. A. Huely of Dallas, in his keynote address to 3,000 business leaders at the chamber's 40th meeting, blamed business men themselves for failure to resist the mushrooming government.

"Our great job today is to exorcise the idea of centralized authority for exactly what it is — a throwback to the unsuccessful past, and a breeding place for new forms of oppression for the individual," Huely said.

Asserting that reform cannot be achieved by "throwing out a given set of men," Huely said that "mink coat shenanigans" are important only as they "symbolize a lack of prudence and vigilance in Washington." He added:

"I would say that national government today is too big to be solvent, I would say it is too big to be efficient."

"But I think I am quoting the opinion of the millions when I say that national government has grown too big to police against immorality and corruption."

Huely deplored the "neglect of duty" by civic leaders who he said should have been speaking up against pork-barrel-type legislation, the concentration of federal power, and encroachments on liberty. Then he said:

"Today, a great and vital industry has been seized by government without due process of law. We all know that if the President has authority to seize the steel mills, he also has authority to seize the home, the crossroads store, the press and other mediums of communication."

"If he can bypass the constitution in the case of steel, he can seize the treasury of a labor union. He can seize the individual — and never mind the law of search and seizure — never mind the Bill of Rights — never mind any law."

"It is precedent that matters here, not the President in question. For presidents come and go. Precedent has a dangerous way of living on forever."

Huely is president of the Lone Star Gas Co.

## Industrial Exhibits Draw 2,000

Approximately 2,000 people visited the industrial display during the day and early evening Saturday.

Industrial Appreciation Day, which was sponsored by the retail businessmen and manufacturing concerns through the Hope Chamber of Commerce was high-lighted by the 21 displays in the industrial exhibit.

Manufacturers who had displays were: Klipsch & Associates, Arkansas Machine Specialty Company, Southwest Wood Products Company, Split Hickory Company, Southern Plastering Corporation, Great Southern Lumber Company, Great Southwest Lumber Company, Hope Floor-Sweep Company, Hope Baskets Company, Corn Belt Hardware, Caddo Machine Works, Inc., Shanhouse Sons, Inc., Hope Bakery, Joe's City Bakery, Meyers Bakery, Coco-Cola Co., Midwest Dairy, Hope Flooring and Lumber Co., Hope Brick Works, Bruner Ivory Handle Co., Hope Locker and Processing Co.

The retail businessmen gave a away \$50 at 1 p. m. and \$30 at 5 p. m. Winners were Joe Lumley, Hope, \$25, Shirley Mae Jones, Em met, \$15, and J. A. Hamilton, Hope, \$10.

The 5 o'clock winners were Mrs. A. L. Parks, Hope, \$25, Billy Joe Schooley, Hope, \$15, and H. P. Robertson, Hope, \$10. Fred Gresham, manager of the Arkansas Louisiana Gas Company, handled the gifts.

About 100 retail business establishments co-operated and participated in the Industrial Appreciation Day activities.

## Abandon Hope for 176 in Navy Disaster

Washington, April 28 (AP) — The desperate search for 176 men who crashed into the aircraft carrier Wasp Saturday night and sank in the middle of the Atlantic Ocean. The Navy said today it has called off the search for 176 seamen listed as missing.

It was one of the worst naval disasters in this nation's history.

The Navy Department said the air and sea search for survivors was called off at sundown yesterday.

There were no casualties reported on the Wasp. Sixty-one seamen on the 1,000-ton Hobson were listed as rescued.

Both the Wasp and the Hobson had distinguished records in World War II. They were enroute to the Mediterranean as part of a United States task force.

The collision took place 1,200 miles east of Boston and 700 miles west of the Azores. The Navy said the sons were choppy and the weather murky. It described the conditions as near-stormy.

"The ships were taking part in night maneuvers, a normal routine. The collision took place shortly before midnight Saturday. The first official word of the crash came shortly before noon Sunday."

A Navy Department spokesman said the search was called off because planes and ships in the area of the sinking had "ample time to search the waters."

But the department stoutly declined to list the victims as "presumed dead" — only as "tentatively missing."

All the Hobson's records went down with the ship and there was no accurate way of knowing the exact complement of the ship. The department said it believed there were 14 officers and 223 men aboard.

The crash ripped a 75-foot hole in the starboard side of the carrier. The gash was just above the waterline, near the bow. The Wasp was making its way to New York for repairs. It was not expected to reach New York before Friday or Saturday.

Navy Department aides stayed on the job around the clock working on the grim assignment of compiling the list of those reported as missing.

## Gruenther to Retain Chief of Staff Job

Washington, April 28 (AP) — Matthew B. Ridgway was appointed today to succeed Gen. D. D. Eisenhower as supreme commander in Europe.

President Truman announced the same time appointment of Mark W. Clark to succeed Ridgway as the U. N. commander in Korea and commander in chief of the U. S. Armed Forces in Far East.

Gen. Alfred M. Gruenther continues as chief of staff to supreme Allied commander in Europe. This is the post he has held under Eisenhower.

"I have every confidence in the same time appointment of Mark W. Clark to succeed Ridgway as the U. N. commander in Korea and commander in chief of the U. S. Armed Forces in Far East."

Generals Ridgway and Clark will make an outstanding team, our common and defense. Ridgway's appointment as Eisenhower's release as supreme Allied commander will become effective approximately June 1.

The President said he was "thrilled Gruenther as chief of staff in accordance with Gen. Gruenther's desires."

Gen. Clark is now commander of Army Field Forces at Fort Belvoir, Va.

The President said Clark continues in the Far East. His duties which have been so ably handled by Gen. Ridgway regard to the United Nations in Korea, including the achievement of an armistice."

The meeting was opened by the president, Richard Duffie. Plans for the State Convention to be held at Fort Smith June 18 were made. The various committees for the day were appointed. Mrs. Fred Cook gave a talk on the "History of the Confederacy." Hal Branch read a poem "The Confederate Gray."  
Refreshments were served.

## 2 Governors Republican Dark Horses

**Washington, April 28 (AP)**—Two governors and a national committeeman might hold the key to the Republican presidential nomination if convention deadlock develops between Sen. Robert A. Taft of Ohio and Gen. Dwight D. Eisenhower.

The three are Gov. Earl Warren of California, Gov. John S. Fine of Pennsylvania and Michigan's national committeeman, Arthur Sumnerfield.

All three will be under extreme pressure at Chicago, because to gather they apparently control a majority of a bloc of 192 of the convention's 1,295 delegates. This represents the largest group of delegates publicly uncommitted to either Eisenhower or Taft likely to be chosen for the July convention.

With surveys indicating that neither major candidate now is in a position to win the 203 votes needed for a first ballot could swing the prize either way.

There will be prayer meeting at 7 o'clock Wednesday evening at the Methodist Church.

Mrs. Dudley Gordon will entertain the members of the Wednesday Bridge Club on Wednesday afternoon at 2:30.

Mrs. Frank Hallow, Jr., Honors Daughter

Mrs. Frank Hallow Jr., entertained with a party at her apartment Wednesday afternoon for the pleasure of her daughter, Carolyn, who was celebrating her fourth birthday anniversary.

After the gifts were opened Mrs. Floyd Hubbard showed two films, "Birds of Our Yards" and "Two Billy Goats Gruff."

The little guests, Joe Esenro, James Wille Duke, Freddie Mosely, Sharon Dewoody, Anna Gordon, Gary Stewart, Sammy Scott, Margaret Dows, James William Foster, Priscilla Bensburg, John Ed Watkins, Phoebe Johnson, Janet Bright, Dwight McBrayer, Bill Goe, Larry Jamison, were invited into the dining room where the table was covered with a red cloth and centered with the birthday cake that represented a carousel with a red and white striped canopy and topped with miniature animals and inscribed "Happy Birthday Carolyn."

Balloons that hung from the chandelier and windmills in stylized form that decorated the table were given as favors.

Ice cream and individual cakes topped with candles were served by Patricia Hallow and Phyllis Foster.

'47 Club Entertained By Mrs. Yarbrough

The '47 Bridge Club was entertained on Wednesday afternoon by Mrs. B. F. Yarbrough at her home.

The rooms were lovely with arrangements of narcissus, tulips, peonies, and lilies.

Mrs. Mark Justiss was awarded the high score prize and Mrs. J. V. Mahen the cut prize.

Bridge guests included Mrs. Justiss and Mrs. Russell Moberg. Tea has been building them, dividing the work equally between primary highways and farm-to-market roads.

2. Continue a program of hospital construction;  
3. Fight for more hydro-electric power plants;  
4. Seek equalization of schools and expansion of colleges;

5. Continue to fight the battles of those who do not have the money or the time to support a battalion of lobbyists at the state capital.

If McMath should win a third term, he would be the second man in the state's history to do so. The legendary Jeff Davis held three terms from 1901 to 1907.

McMath made no direct reply to the Highway Audit Commission, which criticized the administration severely in its recent probe of the state Highway Department.
